Hazard(s)		Risk ratin	g	Control measure(s)	R	isk rating	3
	Likelihood	l Severity	Rating		Likelihood	Severity	Rating
Slips, trips and falls	5	3	15	 Monthly safety inspection of all floors to be carried out. Adequate signage must be in place to advise of any steps or uneven flooring. Please mind the step signs are active in ALL areas where steps are located. In areas of darkness, any inclining or declining areas have handrails or similar in place to assist with walking. Lighting throughout to be periodically checked and repaired as reported. Any raised "stage areas" where applicable must have a dedicated access and egress point with handrail where applicable. Wet floor signs to be used in the event of any leak or spillage. Prompt cleaning of spillages. In the event of leaking equipment, the area should be cordoned off and the equipment isolated / repaired. Use of grit / salt on external walkways during periods of inclement weather. Use of suitable footwear is actively encouraged. Step ladders may be used but these must be used in accordance with HSE training ref document LA455 (https://ladderassociation.org.uk/la455/) and working at heights ref document [https://www.hse.gov.uk/pubns/indg401.htm]. Step ladders must be checked before each use and approved by the relevant manager on site as "appropriate for intended use". All liquids to be stored in appropriate containers and checked for leaks. Any leaking containers to be appropriately disposed of. Ensure adequate lighting in all areas (gaming areas exempt as per individual dynamic assessment). All access to roe fareas appropriately sealed (in the event of fire escape, these are closed as per the fire code regulations). Any windows are to remain closed or have "suicide straps" fitted to prevent purposeful or accidental falling from height. Where possible floor matts will be used in the event of wet weather conditions or regular floor cleaning to prevent the ingress of rainwater c	3	1	3
Injury due to fire & General fire pro	cedure 1	5	5	 All fire alarm monitors are in place and actively tested (fire drill) All fire escape routes are kept free and clear and are clearly signposted. All safety and firefighting equipment is checked regularly, maintained annually (or 5 yearly dependant on supplier) and are in good working condition. Fire warden to be on site during active hours of operation Flammable items / chemicals and other sources of combustion are stored and secured away. Please see independent fire risk assessment and included articles around "electrical 	1	3	3

				 Waste materials to be correctly stored / disposed of. Waste bins are to be firmly closed preferred locked where available however not required. Any waste that cannot be placed within a refuse bin must be appropriately stored away from sources of ignition or disposed of by alternative means. All staff are trained in the evacuation procedure as part of the staff induction process, training repeated periodically to refresh. First aid kit to be located at arena entrance. EFAAW (First aider) to be on site at all times during game play. All electronics are installed by a qualified electrician or someone with an electrical 			
Injury due to possible electrical contact	1	5	5	 competence certificate (PAT Tested). All portable appliances are inspected annually and are in good working condition. No wiring accessible to the public. Trailing cables are to be pinned back or appropriately covered. All packs and charging points to be regularly checked by a senior member of staff for any points of electrical contact they may need repair or replacement. Charging points and related cables regularly checked by a senior member of staff to ensure safe housing against the walls and that any cables are firmly affixed in place. All plug sockets are firmly located in place and (blanked off) where not in use. Any items that have not been safety checked (PAT tested) will be removed from site until such a time they are approved for use. Any battery-operated items are suitably closed / sealed to avoid tamper. All batteries for related items are stored correctly. Battery chargers / battery docking stations are periodically checked for damage and misuse with any faulty items removed (isolated) from use. Wall mounted electronics (lights, cameras, signs etc) are periodically checked for security (mounting) and all relevant cables are not bunched (fire hazard) together and firmly affixed in place. If secondary power extension is required, the relevant extension cable will be PAT tested and certified for its assigned use. Extension leads that are used will not exceed ONE additional socket (unless specified use if for an office area) to reduce the risk of overloading and concealed fire. All low Trailing cables that are affixed to walls are periodically checked for scuffs and or cuts due to contact to footfall. Any cable(s) that appears to be damaged are isolated from use where possible or "made safe" by a qualified individual. First aid kit to be located at reception. 	1	4	4

Appropriate Conduct both acted out and received.	5	1	5	 All staff are trained on the company code of conduct policy as part of the staff induction procedure. Any individuals who exhibit inappropriate behaviour will not be permitted access to site or be asked to leave. Any individuals who are clearly under the influence or intoxicated beyond a level where the Managers feel they are safe, will not be permitted to partake in any activities. All areas of the site are adequately supervised by members of staff and CCTV at all times as far as is reasonably practicable. All games / events / activities are monitored by a relevant Marshal or supervisor. School groups & clubs etc must additionally assist with game supervision. Parents / guardians are accountable for the overall behaviour of their children and accept that Marshals may have to "step in" where appropriate to enforce the rules. Staff to follow internal training ref conflict avoidance and emergency reporting procedures. Staff to be trained in or made aware of the different variations of clients and must be accommodating towards elderly, young and disabled customers needs. 	5	1	5
COSHH (records and potential injury or harm)	5	5	25	 All chemicals involved in the business are either stored in a locked cupboard or secured in place with lock and key. No unregistered chemicals to be used. A full COSHH data book is to be kept on site identifying all chemicals on site and the hazards or risk involved with their usage. Staff are adequately trained in the use of all required chemicals. Any cleaning materials are identified, marked and logged in the data folder and stored in the appropriate locked store. Appropriate PPE is on site for use by the relevant trained individuals as per the relevant COSHH data sheet. Contamination is being controlled by colour coded cleaning apparatus. First aid arrangements to be met as per the chemical data sheet relating to the chemicals in question. 	1	5	5
First aid requirements	1	1	1	 All employees trained in basic first aid. Managers and supervisors to be trained to a minimum of EFAAW (emergency first aid at work) First aid kits to be readily available at each reception station as per each activity. Regular training to fall alongside fire safety training regarding the procedure of dealing with a major incident. 	1	1	1

Ram Consult

				 Training and awareness of the need to "raise the alarm" to the emergency services asap when required. First aid kits to be checked Annually for the expiry date. Stock within first aid kits replenished upon use or at an assigned regular interval. First aid locations to be clearly signposted. 			
Accident or injury occurring from the Serving of licensed alcoholic beverages.	4	4	16	 Staff to adhere to legal requirement not to serve alcohol to intoxicated customers. All staff are trained on the company code of conduct policy as part of the staff induction procedure. Any individuals who exhibit inappropriate behaviour will not be permitted access to site or be asked to leave. Any individuals who are clearly under the influence or intoxicated beyond a level where the Managers feel they are safe, will not be permitted to partake in any activities. All areas of the site are adequately supervised by members of staff and CCTV at all times as far as is reasonably practicable. All games / events / activities are monitored by a relevant Marshal or supervisor, anyone thought to be "under the influence" will be asked to stop lay and leave the games. Staff to follow internal training ref conflict avoidance and emergency reporting procedures. Staff to be trained in or made aware of the different variations of clients and must be accommodating towards elderly, young and disabled customer's needs. Incident log to be kept and filled out as soon as possible after nay incident. Staff to be trained in manual handling, all kegs and crates of heavy stock to be moved preferably by a wheeled carrying device. Empty glassware to be removed from tables and sides asap. Following guidance from slips & trips section. 	2	4	8
PPE	1	1	1	 An apron and gloves are provided Further protection is directed upon the parent or guardian. 	1	1	1
Risk of harm or injury from ingestion	3	5	15	 Whilst all activities are monitored by on site marshals, the onus of child care is put upon the parent or guardian present at the time Parent or guardian must be present at all times, no unsupervised activities to go ahead. Should parent or guardian need to leave, staff neither accept nor offer a service to "watch over" a child. If parent or guardian leaves the room, activity must stop until they have returned. No food or drink to be consumed whilst conducting the activity. 			

Ram Consult

				Hand washing and drying facilities to be supplied			
Injury or harm from inhalation	1	2	2	 PVA paints are used for this activity which are low vapour emitting. Activity to be conducted in a well-ventilated area. Regular breaks to be taken if the activity is to continue for a prolonged period of time. 	1	2	2
Injury or harm from equipment	1	1	1	 Paint pots checked regularly to be fit for purpose Brushes etc checked for splintered edges Canvases checked for sharp edges Easels – checked to be of solid structure and stable. Where floors will be messy during this activity, every effort will be made to direct away from walking on painted surfaces. 	1	1	1
